

VII World Symposium on
Ergonomic Implants

November 03-05, 2022
Bangkok, Thailand

THE SCIENCE OF
BREAST TISSUE
MANAGEMENT

Medical Education
by Establishment Labs

November 03-05, 2022
Bangkok, Thailand

Dear Friends,

For the first time we are hosting the World Symposium on Ergonomic Implants outside of its natural cradle in Lago di Garda and bringing this innovative experience this year to Bangkok!

For this 7th edition in 2022 we are providing 26 quality hours of advanced medical education provided by 45 faculty members from more than 20 countries, focused on the science of human factors, Femtech and the best clinical applications in breast surgery. The concept of ergonomics is gaining momentum in our field, and once again, we believe it is our duty to share the latest research and experiences in order to create best practices for the use of these dynamic devices. We hope you will find this symposium both challenging and inspiring!

What started as a get together of a group of rebels working on innovation in breast surgery has quickly grown to become a world-class medical education event gathering more than 250 plastic surgeons from all the corners of the globe. Breast aesthetics and reconstruction are in the middle of a major transformation, based on the actions of regulatory authorities from around the world, but also — more importantly — on the evolution of surgical techniques and breast implant technology at the service of Women's Health.

We thank you for taking the time out of your busy schedules to travel to this exotic land and experience the wonderful city of Bangkok!

Warmest regards,

Dr. Giovanni Botti
Honorary Chair

Juan José Chacón-Quirós
Founder & CEO, Establishment Labs

SAPS *Pre-Congress*

November 03, 2022
09:00-14:30

Time	Topic	Faculty
09:00-11:15	How to Properly Combine Breast and Body	
09:00-09:15	Lipo and Breast: How to Improve Your Results in The Two Most Popular Plastic Surgery Procedures The Colombian Experience	Dr. Humberto Uribe
09:15-09:30	Mexican Trends in Body and Breast Surgery	Dr. Francisco Pérez
09:30-09:45	Mastopexy: Avoid Crazy Techniques; Make It Simple	Dr. Jaume Masia
09:45-10:00	Hybrid Gluteal Surgery: Step-by-Step Surgical Technique	Dr. Héctor Durán
10:00-10:15	How to Avoid Complications in Gluteoplasty	Dr. Patricio Covarrubias
10:15-10:30	UGRAFT Liposculpture and KA Gluteal Technique	Dr. Carlos Manfrim
10:30-10:45	The Art of Big Volumes in Gluteal Fat Transfer From 0 to 100	Dr. Alejandro López
10:45-11:15	Discussion	Dr. Jaume Masià and Dr. Humberto Uribe
11:15-11:45	Coffee Break	

Time	Topic	Faculty
11:45-14:15	Empowering post-pregnancy women; Lets make them come back	
11:45-12:00	Tips to Improve Natural Results in Abdominoplasty and Mastopexy	Dr. Humberto Uribe
12:00-12:15	Extended and Defined Abdominoplasty	Dr. Francisco Pérez
12:15-12:30	Tulua Miniabdominoplasty	Dr. Héctor Durán
12:30-12:45	RAFT Abdominoplasty and HC BRA Technique	Dr. Carlos Manfrim
12:45-13:00	The Brazilian Standards in Combined Breast and Body Surgery	Dr. Murillo Fraga
13:00-13:15	MILA (<i>Minimally Invasive Lipoabdominoplasty</i>)	Dr. Paulo Godoy
13:15-13:45	Discussion	Dr. Jaume Masià and Dr. Humberto Uribe
13:45-14:15	How to Fully Empower Your Private Practice and Add Value to Your Surgical Skills	Dr. Heloise Manfrim

*Scientific
Program*

Thursday

November 03, 2022

Main sessions

Session 1: Welcome Session

16:30	Intro	Dr. Giovanni Botti
17:00	VII WSEI Keynote Opening Speech	Juan José Chacón-Quirós
18:00	<i>End of the day</i>	

Friday

November 04, 2022

Main sessions

Session 2: Best Practices For Transition to SmoothSilk®/SilkSurface®

Dr. Demetris Stavrou
Moderator

08:00	How Not to Err With Ergo: Avoiding Pitfalls	Dr. Rebeka Held
08:15	Tips For Transitioning Away From Textured Teardrop Implants	Dr. Pouria Moradi
08:30	Motiva MinimalScar® For Maximum Results: Six-Year Experience	Dr. Marzia Moio
08:45	A Decade of Pioneering	Dr. Federico Mayo
09:00	Q&A	

Session 3: Lessons Learned For Challenging Cases

Dr. Pouria Moradi
Moderator

09:15	Reshape Breasts After Massive Weight Loss	Dr. Justin Perron
09:30	One-stage Correction of Severe Tuberous Breasts Using Ergonomix® Implants	Dr. Wouter Van der Pot
09:45	How to Avoid a Traditional Breast Lift Using SmoothSilk®/SilkSurface®: The Internal Mastopexy	Dr. Marcelo Ono
10:00	Secondary Surgery on 20-year-old Implants With Severe Asymmetry and CC Grade IV	Dr. Charles Randquist
10:15	Q&A	

10:30-11:00 *Coffee break*

Breakout Sessions

Session 4.1:

It's All on the Surface:

Enhanced Biocompatibility of SmoothSilk®/SilkSurface®

Prof. Fabio Santanelli di Pompeo

Moderator

- | | | |
|-------|--|----------------------------------|
| 11:00 | Back to the Future | Prof. Fabio Santanelli di Pompeo |
| 11:15 | Landmark Research Published in The Nature Biomedical Engineering Journal | Dr. Marcos Sforza |
| 11:30 | Biotribology of Implant-Tissue Interactions <i>in Vitro</i> | Prof. Angela Pitenis |
| 11:45 | Different Surfaces, Different Responses, One Single Host | Dr. Dolores Wolfram |
| 12:00 | Q&A | |

Session 4.2:

Advanced Stabilization Techniques From Brazil

Dr. Anne Groth

Moderator

- | | | |
|-------|---|----------------------|
| 11:00 | Why Fat and Lower Muscular Sling Is Better Than Dual Plane or Pre-muscular Pockets For Implant Stabilization in Higher-risk Patients? | Dr. Alexandre Munhoz |
| 11:15 | Muscular Sling For Implant Stabilization in Mastopexies | Dr. Murillo Fraga |
| 11:30 | Structured Mastopexy | Dr. Vinicius Melgaco |
| 11:45 | Tips to Avoid Reoperations | Dr. Marcelo Ono |
| 12:00 | Q&A | |

Session 4.3:

Masters of Mastopexy

Dr. Wouter Van der Pot

Moderator

- | | | |
|-------|--|-----------------------|
| 11:00 | Lower Pole Volume Redefinition: The Role of Ergonomix® Implant in Ptotic Breast and Mastopexy Indication | Dr. Alessandro Gualdi |
| 11:15 | Tips to Overcome Challenges in Mastopexy With Ergonomic Implants | Dr. Demetris Stavrou |
| 11:30 | Supporting Poor-quality Tissue With Autologous Tissue | Dr. Jesús Centeno |
| 11:45 | Periareolar Mastopexy With Small Volumes | Dr. Jennifer Gaona |
| 12:00 | Q&A | |

11:00-12:15
Simultaneous
sessions

Breakout Sessions

11:00-12:15
Simultaneous
sessions

Session 4.4: Start With a Bang U.S.A.

- 11:00 Update on the U.S. Motiva IDE Clinical Study
- 11:15 Challenges, Expectations,
Opportunities of the U.S. Market

Dr. Charles Randquist
Moderator

Dr. Caroline Glicksman

Dr. Mark Clemens
Dr. Brian Kinney
Rosalyn D'Incelli
Dr. Caroline Glicksman
Dr. Patricia McGuire

12:15-13:30 *Lunch*

Main sessions

Session 5: The Great Debaters

- 13:30 IMF vs. Transaxillary BA: Advantages and Drawbacks
- 14:15 Long-term Stability With or Without You
(*Additional Stabilization Techniques*)

**Dr. Jaime Masia &
Dr. Humberto Uribe**
Moderators

Team Transax vs Team IMF

Team With vs Team Without

Session 6.1:

- 15:20 The World Cup of Ergonomy

Group 1

AUS Dr. Justin Perron
ITA Dr. Marzia Moio
BRA Dr. Vinicius Melgaco
CYP Dr. Demetris Stavrou

Group 2

CRO Dr. Rebeka Held
BEL Dr. Filip Stillaert
THA Dr. Peera Thienpaitoon
COL Dr. Jennifer Gaona

- 15:50 Great Final

Dr. Visnu Lohsiriwat
Moderator

Masterclasses

15:20-16:00
Simultaneous
sessions

Session 6.2:

- 15:20 Hybrid Implant and Grafted Fat Breast
Augmentation: Designing the Pathway to
a Future With Breasts Free of Silicone

*Introduced by
Dr. Bruno Garcia*

Dr. Marcos Sforza
Faculty

Session 6.3:

- 15:20 TrueFixation®

*Introduced by
Dr. Manuel Chacón-Quirós*

Dr. Federico Mayo
Faculty

Session 6.4:

- 15:20 My Personal Evolution With Advanced
Smooth Implants: Mastering the Techniques

*Introduced by
Dr. Alessandro Gualdi*

Dr. Jesús Centeno
Faculty

16:00 *End of the day*

Saturday

November 05, 2022

Main sessions

	Session 7: Masters of Ergonomic Reconstruction	Dr. Jaume Masià <i>Moderator</i>
08:00	Clinical Outcomes in Long-term Series With Ergonomix® Implants After Mastectomy	Dr. Yves Harder
08:15	Ergonomix® Aesthetic Breast Reconstruction	Dr. Bruno García
08:30	Achieving an Aesthetic BreastRecon® in Two-stages With SmoothSilk™/SilkSurface® Devices	Dr. Antonio Tejerina
08:45	The Synergy of Lipofilling and Prepectoral Implants	Dr. Filip Stillaert
09:00	Q&A	
09:15	Session 8: The Algorithm of JOY®	Dr. Charles Randquist <i>Moderator</i>
		Dr. Jennifer Gaona Dr. Marcos Sforza Dr. Humberto Uribe Dr. Jesus Centeno Dr. Manuel Chacón-Quirós Dr. Peera Thienpaitoon

10:30-11:00 *Coffee break*

Breakout Sessions

	Session 9.1: The Summit of Hybrid	Dr. Marcos Sforza <i>Moderator</i>
11:00-12:15 Simultaneous sessions	11:00-12:15 Adipogenesis and Tissue Homeostasis	Dr. Filip Stillaert
	Targeted Lipofilling to Fix Cleavage Gape	Dr. Wouter Van der Pot
	Lessons From High-definition Liposculpture	Dr. Humberto Uribe
	Hybrid as a Strategy For Tuberosus Breast	Dr. Murillo Fraga
	Fate of Fat: An MRI Volumetric Study	Dr. Visnu Lohsiriwat
	Session 9.2: Back to Recon: Aesthetic BreastRecon®	Dr. Demetris Stavrou <i>Moderator</i>
	11:00 New Trends in Breast Reconstruction	Dr. Jaume Masià Dr. Bruno García
	11:15 Discussion	Dr. Dolores Wolfram Dr. Antonio Tejerina

Breakout Sessions

11:00-12:15
Simultaneous
sessions

Session 9.3:

Spotlight on the Latest in Breast Aesthetics From Asia

11:00	Analysis of Breast Aesthetics For Asians	Dr. Jae Jin Ock
11:15	A Novel Method for IMF Fixation to Minimize the Incision and Maximize the Beauty	Dr. Chun Yu Wang
11:30	Breaking the Mold: Benefits of Large-volume Ergo in Asian Patients	Dr. Singh Jagjeet
11:45	Short-scar Total Capsulectomy	Dr. Ji Hyuk Kim
12:00	Reconstruction With Flora [®] Expanders: An Initial Experience	Dr. Marcus Wong

Dr. Pouria Moradi

Moderator

Session 9.4:

Technology Deep Dive

11:00	RFID Technology and Silicone Implants Tissue Expanders: What Is the Impact in My Practice?	Dr. Alexandre Munhoz
11:15	Integrating High-resolution Ultrasound Into Your Practice	Dr. Caroline Glicksman
11:30	Assessing 1000+ Implants With Ultrasound	Dr. Marie Jaeger
11:45	Breast U.S. Sweep Technique as Diagnostic and Traceability Tool	Dr. Manuel Chacón-Quirós
12:00	Q&A	

Erik Vogelenzang

Moderator

12:15-13:30 *Lunch*

Main sessions

Session 10:

Global Forum on Breast Implant Safety and Women's Health

Dr. Mark Clemens

Moderator

13:30	Updated Data From Biospecimen Research on BI	Dr. Caroline Glicksman & Dr. Patricia McGuire
13:55	State of the Nation: Update on BIA ALCL Numbers	Dr. Mark Clemens
14:10	Challenges in Tracking BIA-ALCL Patients	Dr. Anne Groth
14:25	The Game of Explant: The Patient's Specific Risk for BIA-ALCL	Prof. Fabio Santanelli di Pompeo
14:40	Discussion	

Masterclasses

Session 11.1:

15:20 Key Points for a Best Breast Practice

*Introduced by
Dr. Demetris Stavrou*

Dr. Charles Randquist
Faculty

Session 11.2:

15:20 Breast Preservative Enhancement Procedure:
The Emma[®] Concept

*Introduced by
Dr. Federico Mayo*

Dr. Manuel Chacón-Quirós
Faculty

Session 11.3:

15:20 The School of Gent:
How to Perform Reverse Expansion

*Introduced by
Dr. Rebeka Held*

Dr. Filip Stillaert
Faculty

Session 11.4:

15:20 How to Add Real Value For Your Patients and
For You as a Surgeon in Breast and Body
Surgery

*Introduced by
Dr. Wouter Van der Pot*

Dr. Humberto Uribe
Faculty

15:20-16:00
Simultaneous
sessions

16:00 *End of the day*

Thailand Information

Transportation

- Taxi: Bangkok and big provinces have metered taxis.
- Tuk Tuk: A three-wheeled motorcycle that becomes a symbol of Thailand and can be found around Bangkok and in some provinces

For your reference, taxi from Airport to the venue costs around 500 Thai baht (THB).

Mobile Phone and Internet

Get a SIM card at the airport or service provider stores: Getting a mobile data plan at the airport is probably the best and most convenient option. Your passport will be required for a SIM card purchase in Thailand as the carriers need to register the SIM with the user's name and passport number.

Choose the carrier and mobile data plan: There are three major cell service providers in Thailand: AIS, DTAC, and TrueMove H. These carriers offer a range of pay-as-you-go deals with 3G/4G support for both short and long-term availability, ranging from daily, weekly to monthly.

Top up: Adding or "topping up" your mobile credit is a very easy task that can be achieved quickly at 7-Eleven, service providers' stores, and via Boonterm machines nationwide.

Wi-Fi connection: Hotels, restaurants, and cafés in Thailand provide free Wi-Fi internet access to their guests and customers.

Airport Wi-Fi and internet: Free Wi-Fi is available at Suvarnabhumi Airport for up to two hours per day via the ".@AirportTrueFreeWiFi" network.

There are 126 free internet kiosks located around the airport. Each user can access a 15-minute internet connection at a time. Once the period ends, those who want to continue the service may then log in again. Internet access is also available 24 hours at CAT Telecom Internet Cafés behind the check-in counters (Row W) and at G aerobridge on the second floor.

Source: www.tourismthailand.org/Articles/plan-your-trip-mobile-phone-and-internet

Currency

The local currency is Thai baht (THB).

1 USD (United States dollar) = Around 37.94 THB (Thai baht)

1 EUR (Euro) = Around 36.43 THB (Thai baht)

For further exchange details, refer to:

www.bangkokbank.com/en/Personal/Other-Services/View-Rates/Foreign-Exchange-Rates

*It is recommended to exchange your currency at the airport as credit cards are not widely accepted.

Climate and Weather

Thailand is located between vast areas of land and water, so it is impacted by both the summer and the winter monsoons. As a result, Thailand's weather consists of six months of rainfalls during the wet season, three months of dry and cooling breezes during the winter, and three months of heat during the summer. The average temperature in Thailand ranges from 18°C to 38°C.

Official Language

Thai language is the official language of Thailand.

In most hotels, shops, and restaurants of major tourist destinations, English and some European languages are spoken, written, and understood.

Customs, Immigration, Passport and Visa

Upon arrival in Thailand, foreign citizens must hold a valid passport with at least six months of validity, a valid Thai visa, and proof of onward travel. However, visitors from ASEAN or Western countries, including most European, Commonwealth, and North American citizens, are not required to have a Thai visa for visits less than 30 days in Thailand. They will be granted access through Thailand immigration with a 30 Thai visa waiver, provided upon arrival. After such time, a Thai visa extension from an immigration office or a Thailand visa from an embassy or consulate outside of Thailand is required. Immigration policies are subject to change; check with a Thai Embassy or The Ministry of Foreign Affairs (www.mfa.go.th) for the latest information.

For Thailand visas, The Ministry of Foreign Affairs has issued a new visa policy in Thailand in which the fee for a visa on arrival is increased from THB 1,000 to THB 2,000 from September 27, 2016 and onwards.

For more Thailand visa information, visit:

www.thaiembassy.com or www.tatnews.org/2022/06/thailands-entry-requirements/
