Enhance Your Knowledge,  
Improve Your Confidence

**FABS**  
FACE AND BODY SURGERY

**Venue:**

The View in The Royal College of Surgeons of England

[fabscongress.com](http://fabscongress.com)

FABS congress is dedicated to Aesthetic Plastic Surgery of the Face and Body, and is set to take place in London the 8th and 9th September this year.

The high level educational event promised to be an exceptional opportunity for plastic surgeons and other healthcare professionals to learn about the latest advancements in the field.

The congress will have an impressive line-up of renowned speakers and experts, who will share their insights and knowledge through a series of presentations, interactive sessions and video demonstrations.

In the next couple of weeks, we will be announcing the world-class faculty that will be leading this fantastic event.

Attendees will have the chance to explore the latest trends and techniques in surgery and non-surgical procedures and engage in discussion with fellow professionals.

The meeting will focus on surgical techniques of the breast and body, as well as covering rhinoplasty and all aspects of facial rejuvenation.

In addition to the live event, attendees will also have access to a comprehensive platform that will feature a wealth of added material and content.

This platform will include access to recorded sessions, articles, videos and other resources that can be accessed at any time, providing a valuable resource for ongoing learning and professional development.

This educational event will be an exceptional opportunity for specialists to add to their knowledge and technique.

The 2023 event will be held in the prestigious location of the Royal College of Surgeons of England, and this year the choice is to keep numbers small to allow a more intimate learning experience, so book quickly to guarantee your place.

Course Directors

*Prof. A. Mosahebi & Prof. D. Souza*
