2026 - 3RD EDITION

Date:
May 22nd - 24th, 2026

Congress Venue:
Hotel Parco dei Principi - **Rome**

PROGRAM OVERVIEW

The New Frontiers of Face Lifting is an advanced international course dedicated to the evolution of facial rejuvenation surgery. Through live surgery, expert lectures, and in-depth discussions, participants will explore contemporary techniques, surgical strategies, and clinical decision-making at the highest level.

1 LEARNING OBJECTIVES

The course aims to provide an advanced, comprehensive understanding of modern face lifting techniques.

Participants will gain practical insights into preoperative planning, surgical execution, and decision-making through live surgery and expert-led sessions.

The goal is to refine surgical strategy, improve outcomes, and adopt innovative, safe, and reproducible approaches.

2 TARGET AUDIENCE

This course is designed for board-certified facial aesthetic surgeons and senior residents with a strong interest in facial rejuvenation surgery.

It is ideal for surgeons seeking to deepen their expertise in face lifting techniques and stay updated on international best practices.

The program is tailored to professionals aiming to elevate their surgical precision and clinical results.

3 CONGRESS VENUE

The congress will take place in the elegant setting of the **Parco dei Principi Grand Hotel & SPA** in Rome. Cadaver dissection sessions will be held at the **Campus Bio-Medico**, while live surgery will be broadcast directly from the **Plastic Surgery Clinic**, ensuring a high-level educational experience.

4 CADAVER DISSECTION

The course includes dedicated cadaver dissection sessions designed to provide an in-depth anatomical understanding of face lifting techniques.

Participants will have the opportunity to explore surgical planes, key anatomical landmarks, and technical details in a controlled educational setting.

These sessions aim to bridge anatomical knowledge with surgical practice, enhancing precision, safety, and reproducibility.
